ANDRII SOKUR

Data Analyst & BI Consultant

Dublin, Ireland • a.sokurbox@gmail.com • +353 85 756 3449

PROFESSIONAL SUMMARY

Data Analyst with 4+ years of end-to-end analytics experience across business, operational, and performance domains. Deep expertise in Power BI (DAX, data modelling, automated reporting) and SQL, with a track record of turning complex, multi-source datasets into clear dashboards and actionable insights. Currently based in Dublin, working directly with Irish stakeholders and delivering BI solutions to senior leadership.

EXPERIENCE

Business Intelligence Consultant | New Vision Agency — Dublin, Ireland *Oct 2024 – Present*

- Owned end-to-end analytics lifecycle — from requirements gathering through data modelling to Power BI dashboard delivery and iterative optimisation.
- Built interactive Power BI dashboards tracking KPIs for senior stakeholders, reducing manual reporting time by ~60%.
- Designed and maintained SQL-based semantic models enabling scalable, reliable reporting across multiple business functions.
- Developed advanced DAX measures for trend analysis, scenario modelling, and consistent KPI definitions across teams.
- Implemented cross-source data validation and reconciliation checks, significantly improving reporting accuracy and stakeholder confidence.
- Conducted SQL- and Python-based exploratory analysis to identify anomalies and surface optimisation opportunities.

Consolidated Information Analyst | Ukrainian Red Cross Society — Kyiv, Ukraine *Jun 2022 – Sep 2024*

- Analysed sensitive datasets of 300,000+ records to support nationwide humanitarian program delivery, operational oversight, and compliance reporting.
- Built and maintained end-to-end Power BI and SQL reporting infrastructure used across 7 departments, serving 50+ internal users.
- Designed KPI frameworks and data models that standardised performance reporting from operational to executive level.
- Resolved chronic data quality and reconciliation issues, improving dashboard reliability and executive trust in reporting.
- Presented insights and trend analysis to senior management and non-technical stakeholders, supporting evidence-based decision-making.
- Documented all reporting logic, metric definitions, and data flows — reducing onboarding time for new analysts by ~40%.

Data Analyst | Autodoc — Kyiv, Ukraine *Nov 2020 – May 2022*

- Analysed large operational and transactional datasets across multiple EU markets to support performance monitoring and business reporting.
- Developed and optimised complex SQL queries and reporting datasets for daily operational reporting, reconciliations, and management insights.
- Investigated data discrepancies and performance variances, contributing directly to issue resolution and process improvement initiatives.

SKILLS

Analytics & BI: Power BI (DAX, data modelling, semantic models), Tableau (basic)

Data & Databases: SQL (complex queries, relational databases), ETL & data transformation, data quality & validation

Programming: Python (pandas, exploratory analysis)

Reporting: KPI definition & performance frameworks, stakeholder-facing dashboards, automated reporting

Soft Skills: Stakeholder management, cross-functional collaboration, documentation

EDUCATION

Bachelor's & Master's — Aircraft Maintenance & Engineering | National Aviation University — Kyiv, Ukraine *2021*

Graduated with Honours • Student of the Year • Winner, 'Aviator' national engineering competition • English-taught programme

BSc Mechanical Engineering | University of Dunaújváros — Budapest, Hungary *2019*
